GAME FORMAT

An everyman's doubles match is played, i.e. the match, as a rule, is determined on the spot. The goal is to form as even pairs as possible. Pairs are always assigned to one of the strength groups of players, who receive placement on the basis of ranking place, notoriety and playing skills, respectively. Pairs, as a rule, form an organizer, so at the stage each player has a new partner. **As an exception, each stage also has the opportunity to register with your own partner so that a male players do not play together and the partners will not repeat.**

The admissibility of men doubles in beginners, amateurs and advanced groups is decided by the organizer, according to the level of the players and their position in the points table. The goal is to be with each partner only once in one season.

Pre-registrants are obliged to register their presence at least 15 minutes before the start of the competition, while others are obliged to register at least 60 minutes before the start of the competition.

RANKING

A separate ranking is held in all strength groups. At each stage, the winning pair of the strength group receives 50 points, second place 45 points, third place 41 points, fourth place 38 points, fifth place 36 points, etc. one point at a time in descending order.

From the five stages, the sum of the higher points of the **top four** stages goes into the individual ranking.
